PROFESSIONAL SUMMARY

ISTQB certified detail-oriented Automation QA Engineer with over 6 years of extensive experience in software testing. Skilled in writing automated tests using Playwright and TypeScript, creating CI/CD pipelines in GitHub Actions. Proficient in designing efficient test plans, test strategies, and test cases. A reliable person with excellent problem-solving skills.

EMPLOYMENT HISTORY

Apr. 2024 – Nov. 2024

Senior Quality Assurance Engineer, EarnIn

Covered new features with automated end-to-end, component and integration tests utilizing Playwright (Typescript), Docker and GitHub Actions CI/CD.

Improved defect detection rates by 20% through enhanced functional and regression testing strategies.

Jan. 2023 – Apr. 2024

Senior Quality Engineer, Opn Payments

Reduced test execution time by 30% by implementing and optimizing test automation frameworks using Cypress (JavaScript).

Introduced new test-approach to a team that helps improve communication between QA and developers resulting in a 40% increase in team productivity.

Mar. 2021 – Dec. 2022

Senior Quality Assurance Engineer, CREA

Played a pivotal role in delivering a mission-critical project, ensuring zero critical defects during release, earning accolades from stakeholders.

Standardized the documentation of test cases and scenarios, improving the onboarding process for new QA team members.

Apr. 2020 – Jan. 2021

QA Engineer, Omise

Saved \$5,000 for the company by providing internal testing for a mobile product before an expensive certification (PCI-DSS) from an international provider, resulting in the application passing on the first attempt.

Jan. 2019 – Mar. 2020

QA Engineer, Travpax

Facilitated knowledge-sharing sessions, upskilling team members in API testing using Postman and advanced debugging techniques. Acted as a business analyst when required for API integration projects to finalize business requirements.

Oct. 2018 – Dec. 2018

Software Tester, Yandex

Improved product quality by finding and reporting bugs in standardized ways in the company's own Test Management System.

Sep. 2018 – Oct. 2018

Software Test Engineer, Svetets

Helped to test the company's key product by applying functional, regression and black-box test techniques.

EDUCATION

Jan. 2015

Bachelor of Engineering

- Siberian State Aerospace University named after academic Mikhail F. Reshetnev.

Nov. 2024

- ISTQB Foundation level certification.

SKILLS

- Playwright, Cypress, JavaScript/Typescript
- API testing: JSON/XML, Postman
- Performance testing: JMeter, artillery
- iOS/Android testing: Xcode, Android Studio
- AWS SQS, S3, Lambda, RabbitMQ
- Docker, Bash, Python
- CI/CD GitHub Actions, Jenkins
- Agile, scrum, Jira, Zephyr, Xray
- Black-box, static, dynamic test techniques
- CSS, HTML, Chrome DevTools
- Test case, test strategy and test plan design
- Excellent communication skills
